- Asking if you can **assist** with a medication refill, scheduling their next appointment, or scheduling an appointment with a specialist

- Asking your patient if they have any **questions** before and after their visit

WHAT ARE CAHPS AND HOS?

Every year, two surveys measuring patient satisfaction and health outcomes are distributed to Medicare plan members.

Consumer Assessment of Healthcare Providers and Systems (CAHPS) Survey

- Each year, plan members are randomly selected to receive a patient experience survey
- The CAHPS survey can be completed by email, mail or phone call from March until the end of May
- Asks patients about their overall health, the quality of care they received, and the experience they have with your practice within the last 6 months

Health Outcomes Survey (HOS)

- Each year, plan members are randomly selected to receive a Health Outcomes Survey (HOS)
- This survey can be completed by mail or phone call from mid-July until early November. HOS respondents receive a follow-up survey two years later to evaluate changes in health status
- HOS includes questions about the patient's mental and physical health. It also asks about discussions they have had with their health care providers around fall risk, physical activity and bladder control.

BEST PRACTICES FOR IMPROVING PATIENT EXPERIENCE

Satisfied patients build trusting relationships with their providers and are more likely to follow clinical advice, leading to better health outcomes.

Consider applying these practical tips at your practice to help improve patient experience and quality of care.

PRIOR TO THE PATIENT'S VISIT

1

Accommodate Urgent Appointments – Set aside daily time blocks for walk-in and urgent same-day appointments ensuring your patients that you are ALWAYS there to help them get care as soon as they need it.

2

Provide Alternate Options Ensure you provide members with instructions on how to obtain care after hours. Alignment members can get an appointment right away with a clinician by calling their ACCESS On-Demand Concierge at **1-833-AHC-ACCESS (1-833-242-2223)**, TTY 711, 24 hours a day, seven days a week.

3

Prepare for Your Patient Visits – Review the patient's medical history and any specialist consults or care received. Practice chart preparation prior to each visit.

DURING THE PATIENT'S VISIT

4

Improve the Wait Time Experience – Set expectations for in-office wait time by providing patients with an estimated wait time and updates during check-in; this can improve perceived wait time.

5

Schedule Routine Care Early On – Encourage your patients to make their appointments for routine or follow-up care ahead of time - before they leave your office, if possible.

6

Help Schedule Specialist Appointments – Suggest more than one specialist and call the specialist to coordinate the soonest appointment date. Have Alignment members call their ACCESS On-Demand Concierge, if they need help scheduling with a specialist.

7

Convey Doctor Engagement – Assure your patients you reviewed their medical records and ask for updates from visits with specialists or other providers since their last visit with you. Discuss treatment and next steps as needed.

8

Set Expectations for Tests or Labs – If your patient is having a test done, let him or her know when results are expected and who will be reporting those results to them. Also, let your patients know whom to contact in case they have questions about their results.

9

Review Your Patient’s Current Medications – Review the patient’s medication list and address patient concerns, side effects, and/or barriers to adherence. Ensure the patient understands the prescribed schedule and encourage adherence.

10

Address Questions and Concerns – Before the visit ends, ask the patient if they have questions and address any concerns.

11

Reduce Fall Risk – Address issues relating to fall risk with patients who have a history of falls or problems with balance or walking. Provide tips for increasing home safety such as securing rugs to the floor or installing grab bars in the bathroom.

12

Improve Bladder Control – Discuss any urinary incontinence issues your patient may be experiencing and educate them on treatment options.

13

Encourage Physical Activity – Emphasize to patients the importance of physical activity and the benefits of staying active. Provide patients with ideas and suggestions how to start or increase physical activity. All Alignment Health Plan members have access to a fitness benefit.

Check Eligibility: Review the Evidence of Coverage at alignmenthealthplan.com/memberforms to see the list of qualifying chronic condition(s), which vary by plan.

Request Provider Verification: Members should contact their Primary Care Provider (PCP) to verify whether they have a qualifying

chronic condition. Visit their PCP to have them submit: 1) A visit claim to Alignment Health Plan for automatic processing or 2) A SSBCI provider attestation form, which can be

downloaded at alignmenthealthplan.com/memberforms.

Access Your Benefits: Benefit(s) may be awarded based upon the date in which SSBCI eligibility status is confirmed and not applied retroactively. Once their chronic condition is verified, members will have access to their plan-covered benefits for the remainder of the calendar year.

For any questions or assistance, please reach out to the 24/7 ACCESS On-Demand Concierge Team at 1-833-242-2223 (TTY: 711).

Essentials Allowance*

Qualifying members on select plans receive a monthly spending allowance loaded onto the **ACCESS On-Demand Concierge Card**. This allowance may be used towards healthy groceries, home safety modifications, and utilities at participating retail locations.

Select members may be eligible to receive an OTC & Essentials combined monthly allowance. While other members may be eligible to receive a quarterly allowance for groceries purchased exclusively through Instacart.

Pest Control Services*††

Qualified members receive an annual treatment for covered pests, such as cockroaches, spiders, and ants.

Pet Care Services*††

Qualifying members can have someone help take care of their pets. Members receive an annual allotment of days that can be used for dog walking or pet sitting. To get started, go to wagwalking.com/p/alignment.
